Education

Minerva University Expected Graduation: May 2028

BS, Computer Science & Business | GPA: 3.79/4.0 | <2% acceptance rate *San Francisco, CA*

- Coursework: Data Structures and Algorithms, Applied AI, Machine Learning, Statistical Analysis, Product Analytics, Needs Identification, Product Development, Market Dynamics

Experience

Technical Product Intern, Skild AI *San Mateo, CA* | May 2026 – Present

- Led a 12-week AI robotics PoC, aligning 8+ stakeholders to validate a new capability and win an enterprise partnership
- Directed a product demo video reaching 3.5M+ views and created 30+ client-facing, technical, and social assets
- Built an AI-assisted workflow with LLM prompting, centralizing production planning and lifting team efficiency by ∼35%
- Synthesized 10+ weekly client syncs into prioritized requirements, resolving blockers for 3 engineers to ship on time

Product Manager, Sony (Arc & Beyond) *Tokyo, Japan* | Jan 2026 – May 2026

- Drove market-entry strategy for a 10K-user creative platform across Nigeria, Ghana, and Japan with 5 studios
- Ran product discovery via 25+ customer interviews and built segmentation prioritizing audiences for a ¥3B fund
- Wrote the product spec from customer insights and partnered with 3 engineers on the site's UI/UX, lifting traffic 24%
- Presented to 9 Sony stakeholders (technical and executive), securing rollout approval in 3 international markets

Product Management Intern, Minerva University *San Francisco, CA* | Sep 2024 – Present

- Turned 16 cross-cohort user interviews into 6 prioritized scorecard features, shipped in a Chrome extension MVP
- Launched Minerva Voices, leading writing, editing, and design workstreams; tripled page clickthrough to 12%
- Produced recruitment campaigns growing Minerva's official social media audience to 40K+ followers

AI Automation Intern, Unstuck Engine *Los Angeles, CA* | Sep 2025 – Dec 2025

- Scaled AI-personalized LinkedIn outreach to 300+ prospects, lifting reply rates 6% and driving $2K monthly revenue
- Created and hosted an 8-episode B2B podcast, using generative AI editing to cut production time ∼70%

Product Manager, "On Emotions" (EQ Card Game) *Lutsk, Ukraine* | Jun 2023 – Aug 2024

- Conducted 70+ user interviews to identify needs, driving 3 product updates that boosted monthly sales 50%
- Built and managed a 500+ customer database, converting 140+ one-time buyers into repeat paid-webinar attendees
- Analyzed 12 webinars (1,200+ attendees); introduced guided gameplay and workshop formats, driving 300+ repeat sign-ups

Leadership & Projects

Product Lead, Redlining Education Game (SF Public Health) *San Francisco, CA* | Sep 2024 – Apr 2025

- Led an education game end-to-end from concept to launch; shipped a live, playable product, 1st of 35 teams
- Analyzed decades of redlining data with Python and SQL, surfacing 10 ethical considerations that shaped the product
- Presented a live demo to an audience of 250+ and turned their feedback into 5 prioritized improvements

Founder & Product Lead, Beat Sexism Ukraine *Ukraine* | Oct 2023 – May 2024

- Founded the Ukrainian chapter, recruiting an 8-member team that grew a 1,000+ community via 8 advocacy events
- Set content strategy and led cross-functional execution across content, outreach, and design, reaching 80K+ views
- Published 50+ firsthand testimonies for a national campaign, driving a 38% increase in platform engagement

Project Manager, Youth Center of Volyn *Lutsk, Ukraine* | Jun 2021 – Dec 2025

- Secured a British Council grant; led a 14-member logistics, media, and fundraising team serving 200+ participants
- Adopted registration chatbots and standardized project workflows, lifting project completion rates by 25%
- Organized Retreat Flow, providing end-to-end trauma support to 100+ displaced persons under wartime conditions

Project Manager, Foundation of Regional Initiatives *Lutsk, Ukraine* | Jun 2021 – Dec 2024

- Managed delivery of 35+ youth and civic engagement projects, earning positive feedback from 1,500+ participants
- Directed 15 marketers across 10+ concurrent projects, growing media reach by 40%
- Ran 20+ recruitment interviews; scaled the org via selection, structured onboarding, and mentorship for 80+ members
